BOY SCOUTS OF AMERICA®

ORDER OF THE ARROW

A MESSAGE FROM THE 2024 NATIONAL CHIEF AND VICE CHIEF

The past twelve months have seen unbounded prosperity for the Order of the Arrow, fueled by the determination of our members. 2023 was a year marked by the OA's accomplishments, propelling the Scouting movement forward. At the National Jamboree, the Order of the Arrow spearheaded efforts to support the participant experience, and Operation Arrow saw over three hundred staff serve the thousands who made lifelong memories at the Summit Bechtel Reserve. Every facet of Scouting experienced our legacy of service and witnessed the OA's integral position within the Scouting organization.

While the Order of the Arrow continued our tradition of servant leadership through the Service Corps, we also launched the Summit Apex program, which provided a day of fun and fellowship to over twelve thousand Scouts at the 2023 National Jamboree. The inaugural execution of this initiative was met with positive responses all around, as staff enjoyed the opportunity to directly impact thousands of Scouts while Jamboree attendees experienced riveting shows, delicious meals, and unique activities.

Just a year after their establishment, our two regions have flourished. The identities of these two regions have developed to create a shared spirit that unites Arrowmen across council and section borders. Both the Eastern and Gateway Regions directly impacted the journeys of over two hundred lodges and councils across the nation.

Reflecting on the achievements of 2023, we are filled with boundless excitement for the opportunities available in 2024 as our organization continues to flourish and positively develop the youth of today. We appreciate the unbroken dedication that every Arrowman has offered to ensure that our traditions and our values are carried into the future. The spirit of the Order of the Arrow grows stronger every day, and we are humbled to have the opportunity to share this spirit with the entire Scouting movement.

Yours in Service,
